I won't be participating on the call. I am working on some enforcement issues with the PRPs. At this point, the PRPs are contesting the site stabilization removal action and EPA is in dispute resolution regarding this and there is some issue with compliance with some of the components of the UAO. I am letting Donn and Beverly handle the community relations aspect of San Jacinto.

Donn,

Thanks. I did have a lengthy conversation with the RPs on Wednesday and they are going to get back to me after talking amongst themselves and with you. I think it was a positive call. They will also be contacting you to get your perspective. Basically, they were saying that we will do whatever EPA tells us to do and that the idea of breaking was a brainstorm session between you all and them as a result of concerns that you both had with the committee.

I told them that EPA was working on the goals and objectives for the committee and that I would touch base with EPA on Tuesday or Wednesday to discuss that. They wanted an opportunity to comment after that.

I would like to have a quick conversation to update you on my discussion with prps. Does Monday at 8 am work for you all?

Thanks,
Snehal

Snehal, just to clarify key action items from our call this week regarding CAC issues, You (Harris Co.) were to contact the PRPs to discuss your specific concerns, and EPA will develop a mission statement and short list of community awareness committee site objectives. And, the CAC Call will be rescheduled at a later date.

Thanks
